Requests: HTTP for Humans

pypi v2.10.0 downloads 8k/month

Requests is the only *Non-GMO* HTTP library for Python, safe for human consumption.

Warning: Recreational use of other HTTP libraries may result in dangerous side-effects, including: security vulnerabilities, verbose code, reinventing the wheel, constantly reading documentation, depression, headaches, or even death.

Behold, the power of Requests:

```
>>> r = requests.get('https://api.github.com/user', auth=('user', 'pass'))
>>> r.status_code
200
>>> r.headers['content-type']
'application/json; charset=utf8'
>>> r.encoding
'utf-8'
>>> r.text
u'{"type": "User"...
>>> r.json()
{u'disk_usage': 368627, u'private_gists': 484, ...}
```

A screenshot of a Mac OS X desktop environment showing a web browser window. The window title is "kennethreitz/requests: Python". The address bar shows "GitHub, Inc. [US] https://github.com/kennethreitz/requests". The user "Dustin" is logged in. The page content is the README.rst file for the Requests library.

The README.rst content includes:

- Requirements:** requirements-to-freeze.txt (+sphinx), requirements.txt (Add 'all' proxy selection to select_proxy), setup.py (Merge pull request #2953 from Lukasa/socks_proxy_support).
- Version:** pypi v2.10.0
- Downloads:** 8k/month
- Description:** Requests is the only *Non-GMO* HTTP library for Python, safe for human consumption.
- Warning:** Recreational use of other HTTP libraries may result in dangerous side-effects, including: security vulnerabilities, verbose code, reinventing the wheel, constantly reading documentation, depression, headaches, or even death.
- Code Example:** A snippet of Python code demonstrating the use of the requests library to make a GET request to GitHub's API and print the JSON response.

```
>>> r = requests.get('https://api.github.com/user', auth=('user', 'pass'))
>>> r.status_code
200
>>> r.headers['content-type']
'application/json; charset=utf8'
>>> r.encoding
'utf-8'
>>> r.text
u'{"type": "User", ...}'
>>> r.json()
{u'disk_usage': 368627, u'private_gists': 484, ...}
```
